Dear Mayor Kriseman,
Please note that I may have a design
that will satisfy all involved with
deciding on a positive solution for the St. Pete Pier. I'd been a creator
on the World Trade
Center Memorial reconstruction, and my entry involved a more encompassed
building that
exemplified certain strengths of a combination that signifies symbolism of
the 'Pier's concept'.

In popular opinion, the prior design
was shallow, and that emptiness
caused its inevitable rejection by those who were embodied by our precious
Pier's Pizzazz.
I'd like to meet with you and discuss the functionality that I think you'd
be very pleased with
and also endear not only the citizens of St. Petersburg, but even
Worldwide recognition also!

Please contact me at 813-347-3060,
Patricia M. Kelly-Banks.
