Have you received input from tourists and/or the tourism industry as to what the Pier should be like? It appears to me that tourists are significant users of the Pier.

Subject: The SUNblast with Mayor Rick Kriseman

This week, Mayor Kriseman and Deputy Mayor Tomalin hosted the first South St. Petersburg Community Redevelopment Plan Ad Hoc Committee meeting at the historic Manhattan Casino.

The purpose of the committee is to convene public workshops on the South St. Petersburg Community Redevelopment Plan, take public comment on each draft of the plan, as well as general issues affecting south St. Petersburg, and maintain an orderly process for public input and engagement.
