

CITY OF ST. PETERSBURG QUARTERLY FINANCIAL REPORTS

As of June 30, 2018

PREPARED BY THE FINANCE DEPARTMENT

To: Mayor Rick Kriseman
The Honorable Lisa Wheeler-Bowman, Chair, and Members of City Council
Deputy Mayor/City Administrator Dr. Kanika Tomalin

From: Anne Fritz, Chief Financial Officer

Date: July 17, 2018

Subject: Summary of Quarterly Financial Reports for the period ending June 30, 2018

EXECUTIVE SUMMARY

Attached please find the quarterly financial statements for June 30, 2018. The financial statements represent the City's financial results for the nine months ending June 30, 2018.

Investments

The current amortized book value of all holdings governed by the City's Investment Policy (General) is \$686.6 million and the corresponding market value is \$679.3 million with a total unrealized loss of \$7.3 million. Included in the calculation for total unrealized loss is the market value loss remaining relating to the BlackRock holdings of \$179,028. Excluding the BlackRock holdings, the City managed portfolio is reporting a \$7.1 million unrealized loss. The change in market value of the City's investments fluctuates daily and the change in market value will not be realized unless the instrument is sold or impaired.

When all sources of interest income earnings are combined for the twelve months ended June 30, 2018, the City's investment earnings were \$11.9 million, for an average return of 2.04%. The return for the quarter was 2.09%.

During the current quarter there were maturities held for the face amount of \$63 million. Instruments purchased during the current quarter totaled \$66.5 million.

The City's Alternative Investment Policy Holdings are shown on the attached portfolio statement and are not included in the values presented in the paragraphs above. The current amortized book value of the Alternative Investment Portfolios is \$32.5 million with a corresponding market value of \$37.9 million and a total unrealized gain of \$5.4 million. The total amortized book value of the General and Alternative Investment Policies combined is \$719.2 million and the market value is \$717.3 million with a total unrealized loss of \$1.9 million.

Debt

The Debt Service Reports reflect the current principal and interest maturity schedule by year for the City. A summary of the debt expected future funding sources for enterprise debt is included in the analysis.

Pensions

The Pension Reports display the current activity of pension investments and detailed financial statements for the quarter, as well as the solvency tests for the plans. During the current quarter all three pension funds continue to show positive results in the percentage funded. The solvency tests compare the latest actuarial valuation figures (October 1, 2017) to the current market value of the pension assets for each month of the fiscal year through June 30, 2018.

Financials

OpenGov

In an effort to continue our commitment to “Government in the Sunshine”, and to enhance transparency in financial reporting, the City of St. Petersburg is offering an interactive reporting tool that allows citizens to explore budget and other financial data online in various graphical formats selected by the user. OpenGov, a California-based company specializing in data accessibility, pioneered this online application.

The application has an “Annual” view with 4 years of annual historical data compared to the current year amended budget in graphical form as well as a “Current” view with 4 years of quarterly year to date historical data compared to the current quarterly year to date and prorated amended budget in graphical form. Other views also available to the public are debt service schedules and grant expenditures.

Each quarter the Finance Department will update the quarterly year to date information for the current year on the same day the quarterly report is released to the Budget Finance and Taxation Committee.

Financial Results

Included in the current quarters’ financial summary and budget versus actual statements is a calculation that shows the fund balances from the financial reporting perspective to the City’s budgetary perspective. This calculation should aid in the comparison of the financial statements to the City’s budgetary reports.

Elizabeth Makofske, Budget Director, will be presenting the results for the quarter in a separate analysis of total fiscal year revenues, expenditures, and budgetary fund balances. Further, she will detail the budgetary fund balances as compared to their target per fiscal policies.

Please feel free to contact me with any questions relating to the financial statements.

From: Anne Fritz, Chief Financial Officer

Date: July 19, 2018

Subject: June 30, 2018 Quarterly Pension Funds Report

The attached Pension Funds Report reflects the activity in the City's Employees Retirement Fund, Fire Pension Fund and Police Pension Fund (the "Plans") for the quarter ended June 30, 2018. The report provides detailed financial statements for the nine months ended June 30, 2018 compared to the summarized financial statements for the year ended September 30, 2017, details of investments held by the Plans and solvency tests utilizing the most recent actuarial report for all the Plans.

During the fiscal year, the City contributes funding to the Plans based on the annual required contributions calculated by the Plan's actuary in the following payment schedule: 1/12 in October 2017, 1/12 in November 2017, 1/12 in December 2017 and 9/12 in January 2018. In order to record the contributions expense evenly over the fiscal year to the City's funds, the Plans record a pension prefunding liability at time of funding and expense the City's funds over the fiscal year.

The calculations on the report "Historical Market Value versus Actuarial Figures for Solvency Tests" demonstrate the funding status of the actuarial present value of benefits and actuarial accrued liability on a monthly basis. The actuarial values are based on the October 1, 2017 actuarial valuation report.

During the first three quarters of fiscal year 2018, the Plans have experienced an aggregate interest and dividend income earnings of approximately \$19.2 million and realized and unrealized investments gains of \$36.3 million. During the first three quarters of fiscal year 2017 the Plans had experienced an aggregate interest and dividend income earnings of approximately \$18.1 million and realized and unrealized investments gains of \$69.5 million.

The Deferred Retirement Option Plans (DROP) Statement of Net Position is included in the Pension Funds Report to illustrate the outstanding investments held by the Plans as well as the corresponding DROP liability outstanding to participants. Beginning in Fiscal Year 2014 and forward the City will include the investments and corresponding liability of the Plans in the Pension Plan financial statements in the Comprehensive Annual Financial Report (CAFR) as required by the State.

Private Advisors: Additional Information

In April 2016, Private Advisors, LLC announced the closure of the Private Advisors Stable Value funds due to a higher than expected level of redemptions in Q1 2016 as a result of the current market environment and recent performance. Effective June 30th, the funds will not charge management or performance fees. It is anticipated that the final 2016 distribution will occur the week of July 31, 2018 and will conclude the wind down of the Fund.

(b) In April 2016, Private Advisors, LLC announced the closure of the Private Advisors Stable Value funds due to a higher than expected level of redemptions in Q1 2016 as a result of the current market environment and recent performance. It is the intention of Private Advisors, LLC to return the full 100% of the assets, with a small remainder coming after the 12/31/2018 distribution date. The first distribution was received by both plans in August 2016. It is also important to point out that the remaining investments will be subject to market value fluctuations; so the total capital returned may be higher or lower than what has been estimated. Effective June 30th, 2016 the funds will not charge management or performance fees.

(c) Cost and market value are as of May 31, 2018 - pending receipt of June statement.

Tactical Asset Allocation Reasoning**Global Equities**

Relative Weights

US	Equal Weight	US equities have done exceptionally well since the global financial crisis, but they are now in the latter stages of a cyclical bull market. While the acceleration of the Trump/Republican progrowth agenda has created a booming economy and earnings outlook, it may also be sowing the seeds for the end of the cycle as the Fed is forced to raise rates and tighten policy in a more deliberate manner.
International Equities (Developed Markets)	Overweight	We maintain a positive bias for Japanese and European equity markets. The populist movements around the world are now spreading to Italy which may spur further fiscal support from Germany and France. This would be a potential positive catalyst but not likely to develop until September.
Emerging Markets	Overweight	Emerging market (EM) equities have been the best region over the past 24 months but are underperforming so far in 2018. Some of this is simply the result of a market that needs to consolidate spectacular gains the past few years. However, it is also directly related to the Fed's tightening campaign. We expect EM to find support not far from current levels and have a strong finish to the year.

Global Fixed Income

US Investment Grade	Underweight	We have recommended shorter-duration (maturities) since March 2013 given the extremely low yields and potential capital losses associated with rising interest rates from such low levels. While interest rates have remained exceptionally low, US economic data have been very strong recently and the Fed is now raising rates at an accelerating pace. Adding some longer duration when 10-year US Treasury yield is above 3% makes sense.
International Investment Grade	Underweight	Yields are even lower outside the US, leaving very little value in international fixed income, particularly as the global economy begins to recover more broadly. While interest rates are likely to stay low, the offsetting diversification benefits do not warrant much, if any, position, in our view.
Inflation-Protected Securities	Overweight	With deflationary fears having become extreme in 2015 and early 2016, these securities still offer relative value in the context of our forecasted acceleration in global growth and our expectations for oil prices and the US dollar's year-over-year rate of change to revert back toward 0%. That view played out in 2016 and 2017 but has not yet run its course.
High Yield	Underweight	High yield has performed exceptionally well since early 2016 with the stabilization in oil prices and retrenchment by the weaker players. We recently took our remaining high yield positions to zero as we prepare for deterioration in quality of earnings in the US led by lower operating margins. Credit spreads have likely reached a low for this cycle.

Alternative Investments

Real Estate/REITS	Underweight	Real estate investment trusts (REITs) have underperformed global equities since mid-2016 when interest rates bottomed. We think it is still too early to reconsider our underweight zero allocation given the further rise in rates we expect and deteriorating fundamentals for the industry. Non-US REITs should be favored relative to domestic REITs.
Master Limited Partnerships/Energy Infrastructure	Overweight	Master limited partnerships (MLPs) have traded better since their capitulation in March around the FERC regulatory announcement. With oil prices much more stable and on an upward path, MLPs have garnered more interest given their 8%-to-10% yields.
Hedged Strategies (Hedge Funds and Managed Futures)	Equal Weight	This asset category can provide uncorrelated exposure to traditional risk-asset markets. It tends to outperform when traditional asset categories are challenged by growth scares and/or interest rate volatility spikes. As volatility becomes more persistent in 2018, these strategies should do better than in recent years.

The governmental, enterprise and internal service funds schedule of revenues, expenditures and changes in fund balance – budget versus actual for the nine months ended June 30, 2018 are prepared using the current financial resources measurement focus, are not in accordance with generally accepted accounting principles (GAAP) basis of accounting and are utilized for analysis of operations during the fiscal year.

The financial results for the nine months ended June 30, 2018 show that revenues and expenditures are generally consistent with the budgeted amounts. However, property tax revenues are almost all collected in the first quarter of the fiscal year so in order to project yearly amounts, this would have to be taken into consideration as this quarter and the next quarter will show only minimal property tax collections.

Included in the current quarters' financial summary and budget versus actual statements is the adjustment for accounts not included in budgetary fund balance that converts the fund balances from the financial reporting perspective to the City's budgetary perspective, aiding in the comparison of the financial statements to the City's budgetary reports. Amounts showing in the "Year to Date Actual" column are for actual expenditures only and do not reflect outstanding encumbrances against appropriations. The outstanding encumbrances are shown as an adjustment to fund balance to show amounts currently encumbered by fund to reflect budgetary fund balance by fund as of June 30, 2018.

The Budget Department will produce reports annualizing and estimating total revenues and expenditures for the balance of the fiscal year to project total revenues and total expenditures for the fiscal year. Those reports will be shown separately from this report.
