RE: Convenience Business/Convenience Store Safety Ordinances - 918-G

With input from the Police Department, the City Attorney's Office has changed a term used in the proposed ordinance, Section 20-53, which regulates convenience store safety. In paragraph b(4) the term door buzzer has been changed to automatic door lock. The change in paragraph b(4) is reflected as follows:

(4) An ~~door buzzer~~ automatic door lock or similar security device installed at the convenience store entrance which will require an employee to grant a person access to enter the convenience store between the hours of 11p.m. to 5a.m.

If you concur with this change, you should adopt the ordinance as amended since first reading.
