

SAINT PETERSBURG CITY COUNCIL

Consent Agenda

Meeting of May 21, 2009

To: The Honorable Jeff Danner, Chair and Members of City Council

Subject: Approving blanket purchase agreements with Carl Eric Johnson, Inc., ITT Water & Wastewater Florida, LLC and Tencarva Machinery Co. d/b/a Hudson Pump & Equipment, sole source providers for pumps, pump parts and repair services for the Water Resources Department at an estimated annual cost of \$225,000.

Explanation: The vendors will furnish, replace and install Moyno, ITT A-C (Allis Chalmers), ITT Goulds and ITT W & WW Flygt pumps at the water reclamation facilities and lift stations. The Water Resources Department has historically utilized these brands of pumps for a variety of specialized purposes that have proven cost effective for operations and maintenance. Sole source procurements are recommended because factory-authorized and certified local service, repair and replacement for these brands is available only from the subject vendors. Pump types will include circulating, portable, stationary, centrifugal, diaphragm, hydraulic, propeller, injector, rotary submersible, surface-mounted sewage, sludge, sump and well pumps. The vendors will also provide service and software support for their respective pumps at these facilities.

The Purchasing Department, in cooperation with the Water Resources Department, recommends:

Pumps, Pump Parts and Repair Services.....	\$225,000
Carl Eric Johnson, Inc.	\$100,000
ITT Water & Wastewater Florida, LLC	75,000
Tencarva Machinery Co. d/b/a Hudson Pump & Equipment	50,000

This purchase is made in accordance with Section 2-232 (d) of the Sole Source Procurement of the Procurement Code, which authorizes city Council to approve the purchase of a supply or service over \$100,000 without competitive bidding if it has been determined that the supply or service is available from only one source.

Cost/Funding/Assessment Information: Funds have been previously appropriated in the Water Resources Operating Fund (4001), Water Resources Administration (4202045) and various capital improvement projects in the Water Resources Capital Project Fund (4003).
