RE: Pier Education Advisory Team Presentation
DATE: February 8, 2017

Attached please find the presentation for reference to be given by the Pier Education Advisory Team at your regularly scheduled Council meeting on Thursday, February 9, 2017. The presentation will be given by Peter Clark of Tampa Bay Watch to highlight volunteer efforts to ensure a robust educational program at the new St. Petersburg Pier. This is an informational report with no action required, and team members will be available in the event there are questions on the activities or progress of this team.

- Kathryn Howd
- Barbara Stalbird
- Mark Luther and Staff
- Lael Arango
- Kellie Gilmore
- Tom Lawery
- Nevin Sitler

Good afternoon - We appreciate the opportunity to introduce to you the Pier Education Advisory Team, a group of citizens and professionals representing various educational fields from the Tampa Bay community.
The mission of the Pier Education Advisory Team is to define diverse educational experiences that will foster an understanding of our rich marine biodiversity and the importance of safeguarding ecosystems for visitors of all ages.
Pier Education Vision and Goals

- Engage the senses
- Ignite the imagination
- Instill stewardship
- Be accessible to all

The goal of our team is to ensure that educational programming at the Pier will be for kids of all ages, be accessible in all ways (cost, handicap accessible, understandable, etc) and be interactive, sustainable, dynamic and fun.

Our team’s vision is that the Pier will be a world class outdoor experience designed to engage the senses, ignite the imagination, instill stewardship and be accessible to all.

The Education Center will be one of the anchors of the new Pier, a center of attraction at the center of the Pier district.
We live in an area that is amazingly rich in biodiversity. The Tampa Bay Estuary is among the most diverse and productive ecosystems in the world.

Our team is in the process of defining educational "themes" for the Pier and recommending activities tied to those themes within the Pier setting.

We are committed to STEAM educational opportunities that relate to the rich ecology found within the Pier District.
While we have just begun this process, we are enthused about the opportunities the new Pier presents to provide a world-class experience for all visitors.

We have started to identify locations for educational activities, including:

- Beach/Sea Grass Beds
- Education Center
- Coastal Thicket
- Bio Swale/Eco Gardens
- Solar Opportunities
- Interactive Exhibits, Potential for Live Video Feeds
- Pier Head – Interpretive Displays
- Fishing & Sustainable Fishing Practices
As we go through this process, we will continue to keep you updated and let you know our recommendations and associated needs.

On behalf of the Pier Education Advisory Team we thank you for your time!
February 2, 2017

TO: The Honorable Members of City Council

SUBJECT: Brown and Caldwell – Basis of Design Report

PRESENTER: Claude Tankersly

SCHEDULE FOR COUNCIL ON: Agenda of February 9, 2017
