## **St. Petersburg Police Department Investigating a Fatality Traffic Crash**

On Monday April 11, 2011 at 10:07 a.m., St. Petersburg Police Officers and St. Petersburg Fire Rescue responded to a traffic crash at 18th Avenue North and 66th Street North.

Preliminary information from the supervisor on the scene indicates a Chevrolet, driven by a black male in his twenties, was travelling southbound on 66th Street North when a Volvo, driven by an elderly white female, was traveling northbound on 66th Street North, and then made a left turn at 18th Avenue North, directly in front of the Chevrolet.

The front of the Chevrolet struck the passenger side of the Volvo in the intersection.

The driver of the Volvo died at the scene. The driver of the Chevrolet was taken to a local hospital. We do not know the extent of the Chevrolet driver's injuries.

Traffic Homicide Investigator Scott Pierce is conducting the investigation and will prepare a more detailed press release later today.
