Video Released of Burglary to Elementary School Resulting in the Lost of Nineteen Computers

On June 15th, 2011 at about 2:30 a.m., two suspects entered the grounds of Perkins Elementary School located at 2205 18 Avenue South and forced entry into the school's media center.

Once inside the suspects gathered up seventeen Mac Book computers, two I Mac desk top computers and a projector, all of which they carried away from the school. The computers had an estimated value of \$1000 each.

The school's security cameras captured images of the suspects at various locations around the school. Both appear to be black males in the late teens to early twenties, of average build, wearing latex gloves and stockings on their heads. One suspect appears to have long hair concealed under the stocking.

Burglary detectives are asking for the public's assistance in identifying these suspects. Anyone with information is asked to contact Detective Ricardo Lopez at 727-893-4830. Callers may also utilize the St. Petersburg Police Department Tip Line at 727-892-5000.
