I understand that the Contractor, Owner, Tenant or Authorized Representative will submit a Uniform Notice of a Low Voltage Alarm System Project within 14 days after completing the project.

Labels are issued in accordance with a Low Voltage Alarm System Project procedure for projects related to the installation, maintenance, inspection, replacement or service of a new or existing alarm system, as defined in s. 489.505, that is hardware and operating at low voltage, as defined in the National Electrical Code Standard 70, Current Edition, and ancillary components or equipment attached to such a system including, but not limited to home-automation equipment, thermostats and video cameras. However, a permit is not required to install, maintain, inspect, replace, or service a wireless alarm system, including any ancillary components or equipment attached to the system. This does not apply to the installation or replacement of a fire alarm if a plan review is required.
